

The Duchess Experience, Knowsley Hall, Liverpool

Akorn Destination Management

Curating a new era in Luxury Shore Excursions

From our European offices based in the UK, Italy and Spain, we offer private shore excursions for cruise line guests in over 50 ports across Europe. This allows guests to travel in the privacy of their own party, but also to customise their tour to suit their individual interests. Time is a precious commodity for our cruise line guests who may only dock in each port for a day at a time and we recognise that, though time may be short, our guests still seek authentic and unique experiences that expands their appreciation of their chosen destination.

Covering an expansive range of destinations across England, Scotland, Wales and Northern Ireland, we are proud to offer a wide selection of exceptional pre and post cruise experiences within each destination. In 2023, Akorn, part of Abercrombie & Kent, entered the UK shore excursion world, curating a new era in luxury cruise expeditions.
